SUBJECT: ENTITLEMENT FOR PRACTICE UNDER PEC ACT 1976-REGISTERED ENGINEER (RE) VS PROFESSIONAL ENGINEER (PE)

The undersigned is directed to refer to Pakistan Engineering Council (PEC) letter No. PEC/Reg/EPE/27/2026 dated 05 August, 2026 on the subject noted above, wherein PEC share the following distinctions for strict compliance:

1. Registered Engineers (REs)

May use the title of "Engineer" and are allowed to practice in the engineering profession under supervision of Professional Engineers (PEs). However, they cannot:

Mangra *28/8/26* *mm* *28/8* *RIC* *28/8/26*

3
Sign engineering drawings or designs.

Certify technical reports, processes, or project documents.

Sanction tenders or technical proposals.

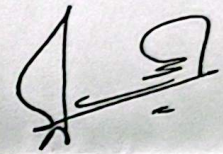

Undertake independent professional responsibility on behalf of the organization.

2. Professional Engineers (PEs)

Attain full legal authority upon successful qualification in the Engineering Practice Examination (EPE) after 5-year experience in profession. PE is authorized under law to sign drawings, sanction tenders, certify projects, and assume independent professional responsibility. Enjoy full statutory recognition of competence at national level and importantly, the PE title is a mandatory pre-requisite for further attaining the status of International Professional Engineer (Int. PE), which facilitates global mobility, overseas licensing, and recognition under international frameworks.

2. In this regard, PEC has requested to ensure that every RE in their employment who has completed the required professional experience must immediately apply for the forthcoming 27th Engineering Practice Examination (EPE) to be held on November 8, 2026 (Sunday) to attain the PE title.

3. Forwarded for information and further necessary action.
